

Avery Dennison[®] Paint Protection Films

Protection for life.

Science driven innovation has developed the strongest, most durable protection you can give your vehicle. Built with up to four essential layers, each Avery Dennison paint protection film is equipped to preserve the paintwork against environmental conditions. To the naked eye our transparent gloss paint protection films are almost invisible, maintaining the authentic car styling.

Our most advanced films are made for multiple purposes, with enhanced TPU for characteristics like self-healing at ambient temperature, high scratch and stain resistance.

A growing range of protection films for vehicles.

ALWAYS LOOKING FACTORY FRESH
A car in perfect condition has faultless paintwork. Driving will expose the bodywork to the elements and road debris, with your paintwork taking the punishment. Advanced paint protection films create a barrier for paintwork against debris, stones and stains. They do more than protect against scratches and impacts, they possess the ability to even self-heal.

WORLD LEADING SELF ADHESIVE FILMS
Avery Dennison is the world's leading manufacturer of self adhesive films and wrap products for automotive. Our Supreme Wrapping Film™ is recognised for quality and ease of application, with over 120 colours, finishes and visual effects.

Performance when you need it most.

PROTECTION LAYER
The PET layer protects the film before it is applied, and accentuates the finish (excluding Supreme Protection Film Matte*).

TOP-COAT LAYER
A beautiful first line of defence. Durable, with self-healing* and a liquid glossy or matt finish.

CORE LAYER
A strong and flexible foundation made of TPU that ensures a uniform look, and long term impact resistance*.

ADHESIVE LAYER
Creates a secure and safe bond with your bodywork. Removable at the end of life-time.

* does not apply to Pure Defense PVC.

Two series of performance materials for advanced protection.

Supreme Protection Film series

Supreme Protection Films are the leading technology in self-healing protection. With both gloss and matte finishes, and a gloss black option, the films are designed for full car protection or protecting high risk vehicle parts. Made with a high scratch resistant top-coated Polyurethane, each Avery Dennison Supreme Protection Film product helps to maintain the pristine factory condition of high value vehicles, is easy to apply and provides outstanding aesthetics.

- Room temperature or heat activated self-healing
- Up to 10 years UV resistance*
- Easy to apply and remove
- Premium finish
- Durable optical clarity
- Smooth, uniform surface

Pure Defense series

Adding a layer of toughness against the rigors of the road, the Avery Dennison Pure Defense PVC offers economic standard protection.

- 150µm PVC film
- Uniform surface appearance
- Up to 5 years durability*
- Conforms to flat and simple curves

Application Tools

The ideal support for all your PPF applications!

Squeegee Yellow (rigid)

The Squeegee Yellow (rigid) is a non felt Squeegee. Due to the form and flexibility, this squeegee is an essential support in the application of our Window Film and Paint Protection Film portfolio. The Squeegee Yellow is more rigid than the Squeegee Orange but still flexible.

BO7840001 - 96 pieces / box - Squeegee size: 125 x 50 mm

Squeegee Orange (flexible)

The Squeegee Orange (flexible) is a non felt Squeegee. Due to the form and flexibility, this squeegee is an essential support in the application of our Window Film and Paint Protection Film portfolio. The Squeegee Orange is more flexible than the Squeegee Yellow.

BO7850001 - 96 pieces / box - Squeegee size: 125 x 50 mm

Avery Dennison Application Gel

Avery Dennison Application Gel is a transparent gel designed to support the application of paint protection film including SPF-XI. The gel facilitates the ease of application keeping the substrate well moisturized providing the right tack and positioning of the film during installation. The Avery Dennison Application Gel residues can be easily cleaned after application, even when fully dried. The Avery Dennison Application Gel is available in a 1L bottle and in a 5L refill canister, the gel can be used with the Avery Dennison Spray Bottle 1.2 L as well.

BP6340001 - 6 x 1L / Box
BP6330001 - 4 x 5L / Box

Surface Cleaner 1ltr UN 1993 LQ Class II

The Surface Cleaner is a high-performance cleaner that enables you to remove all kinds of residue using one single product, including dirt, wax, tectyl, light silicone, cock-pit sprays, and more. A highly user-friendly cleaner, especially designed for the degreasing phase prior to application.

CA3750001 - 6 x 1L / box

Spray Bottle

The Spray Bottle is a high quality bottle used during the wet application, to distribute the water/soap mixture evenly onto the application surface & material. The bottle can be used in all orientations/angles and will not stop the supply of the liquid even when turned upside down. The bottle has a volume of 1.2 L.

BM3110002 - 1 bottle / box
